Soft Skills - Team Collaboration ,Time Managment,Positive attitude,Willingness to learn
Editors / Tools - Vs-Code,Github

Experience

Ypsilon information Technology Solutions Private Limited

- Completed a 6-month task-based internship focused on MERN Stack development.
- Delivered weekly assignments and independently developed frontend and backend modules.

Web Development Internship
Jan 2024

Projects

Name of Project : Ecommerce Website

Role : Mern full Stack Developer

Responsibilities :

- ⌚ Engineered full-stack web applications leveraging the MERN stack (MongoDB, Express.js, React.js, Node.js).
- ⌚ Developed interactive front-end features using React.js, ensuring seamless API integration and responsive design.
- ⌚ Crafted RESTful APIs and backend logic with Express and Node.js to handle business processes and data flow.
- ⌚ Modeled and maintained NoSQL databases with MongoDB; handled data queries, updates, and aggregation pipelines.

Certification

Web Development

Universal informatic Training Institute

I have completed an intensive MERN stack course from Universal informatics in Indore, where I mastered the art of full-stack development. The training emphasized building efficient, user-centric web applications using MongoDB for databases, Express.js for backend services, React.js
